Response

1. The residents of Park Avalon Mobile Estates submitted a petition at the joint public hearing in opposition to the 2010 Amendment. No specific reasons were stated. However, their primary concern expressed at the joint public hearing was the potential of the Agency to take their homes. As defined in the 2010 Amendment, the Agency's proposed eminent domain extension and reestablishment would specifically prohibit the Agency from taking any residential property where person or persons reside. This residential prohibition would also include mobile homes.

Finding

Based on the information contained in the above response, the testimony received at the public hearing, and other evidence contained in the record before the City Council, the City Council hereby finds that the objection is without merit and overruled.
