

## Contractor Application Carson Neighborhood Pride Program

### PROGRAM INFORMATION AND GENERAL CONDITIONS FOR CONTRACTOR PARTICIPATION

The City of Carson (City) finances rehabilitation projects throughout the City each year using Community Development Block Grant (CDBG) program funds for the Neighborhood Pride Program (Program). The success of this Program depends on the ability of contractors to provide competitively priced, high-quality construction services in a timely manner.

Failure to adhere to the following conditions governing the conduct of City-listed contractors will result in the immediate removal of the contractor from the list by decision of the Program's Screening Committee. Furthermore, the City reserves the right to immediately remove a contractor from the list and deem a contractor ineligible to bid or contract on future projects under this Program if a contractor's construction contract is terminated by the property owner or the City for poor workmanship, unacceptable work performed by the contractor or its subcontractors, or for a violation of the contractor agreement or other Program requirements. Violations of local, state, or federal laws, including California State License Board requirements, will be reported to the proper authorities for investigation, as warranted.

If you are a contractor and would like to participate in the Program, please carefully consider the Program description and all conditions prior to submitting this application to be placed on the City's contractor list:

1. The contractor must be currently licensed with the California Contractors' State License Board. The license must be in good standing. All work must be performed in compliance with all applicable State Contractor Regulations regarding Contractor License Law and License Classifications. **Only contractors with a B-General or C-47 General Manufactured Housing Contractor license are eligible.**

This does not prohibit the contractor from marketing its services to City residents; however, the contractor may not identify itself as a City-listed contractor or represent itself as being associated with the City in any way (verbal or printed). If the contractor becomes aware of a client who may qualify for City assistance, the contractor may provide the client's name, address, and telephone number to a City representative for appropriate follow-up.

6. Each bid request will include:
  - A. *A Work Description and Bid Proposal Form*; and

Contractors receiving a participant request for a bid shall make contact with the homeowner within three (3) calendar days, excluding Sunday, of receipt of the request, to arrange for an individual appointment with the property owner, to review site conditions and to take measurements, as applicable. Typically, contractors will be provided with 14 calendar days to submit a bid. **The contractor must respond to all Program participant requests for bids and submit a complete bid to the property owner to remain on the City's contractor list.** Contractors with four (4) active construction contracts will not be allowed to bid on additional projects until he or she completes at least one (1) of the projects, but will, nevertheless, retain their status as a City-listed contractor.
8. When interacting with property owners and City representatives, the contractor, its employees, and subcontractors shall conduct and present themselves in a courteous and professional manner.

All changes to the contracted work (work description/specification, price, time of performance, etc.) shall be documented on a change order form that is signed by the property owner, contractor, and a representative of the City. During the performance of repairs, the contractor shall not perform any work on the property that is not included under the construction contract.

14. The contractor agrees to assume all responsibility for damages to property or injuries to persons, including accidental death, which may be caused by contractor's performance of any and all work conducted under the Program, whether such performance be by contractor, its employees, subcontractors or agents, or whether such damage shall accrue or be discovered before or after termination of the construction contract.
15. The contractor agrees not to assign any right under the construction contract except upon prior written authorization of the property owner and the City. Any request for assignment must be addressed to the property owner and the City for their approval before consent is given. Contractor shall not make any delegation of authority or responsibility that would in any way purport to relieve him/her of any obligation imposed by the construction contract.

- 16. The contractor, his/her agents, employees, and subcontractors shall ensure adequate protection to the property owner's property, both interior and exterior, during the construction process. This includes covering the furniture and protecting the flooring during sanding and painting, protecting outdoor plants during sandblasting and painting, etc. The contractor agrees not to use the property owner's personal property such as towels, sheets, shovels, tools, etc. The contractor must supply his/her own tools and furniture covers. The contractor agrees to coordinate with the property owner regarding which items of furniture need to be removed prior to commencement of work.

All invoiced requests for payment will be processed in accordance with adopted City procedures. Neighborhood Pride Program staff must receive each request by Wednesday at 5:00 p.m. for processing. Payment for services occurs only on a Thursday of any given week and requires a **two-week** City processing period.
