Keep your containers looking good

SOLID WASTE MANAGEMENT SERVICES FOR CARSON BUSINESSES AND MULTI-FAMILY PROPERTIES

MANDATORY COMMERCIAL RECYCLING

State law requires all businesses that regularly generate four (4) or more cubic yards of waste weekly and all multi-family complexes (5+ units) to recycle.

It is to your advantage to subscribe to a separate recycling service for paper, plastic, glass, and metals. Call our office to discuss your options and see how you can save money, as recycling service is half of equivalent trash service.

MANDATORY COMMERCIAL ORGANICS RECYCLING

State law also requires businesses and multi-family complexes (5+ units) that regularly generate four (4) or more cubic yards per week to recycle their organic waste. Organic waste includes food scraps*, landscape and pruning waste, and nonhazardous wood waste. Call our office for more information and to find out how to comply with this law.

* At this time, multi-family complexes are not required to have a food scrap program, but must recycle the other organics listed.
