

Rebuttal Against Proposed Charter – Measure CA

With over 400 cities in California, less than 130 are charter cities. According to research, over 58% of Carson residents throughout the city (north, south, east and west), said if the charter were unnecessary that would be one of the most convincing reasons to oppose the Charter.

The proposed charter will:

- Provide land use and zone changes that may allow truck increases and warehouses in our community
- **Increase the Mayor and city council's salary by 72%**
- Not address or define the potential cost of the new Civil Service Commission relative to the duties and responsibilities
- Allow for the commercial cultivation and wholesale of marijuana.

The Proposed Charter was rushed and is contradictory, thus allowing for loopholes that can be challenged.

The Charter Committee did not vote on the proposed Charter as presented.

A vote for the charter is a vote for the entire document not just particular sections.

Over 63% of Carson residents polled said a statement about corruption was a convincing argument to oppose the charter! **Don't forget the city of Bell!**

Proposed Charter may impose elections using vote-by-mail ballots only.

Beware! The "impartial analysis" by the city attorney may not be so impartial!

Current council majority; Mayor Robles, Councilmen Hilton and Santarina voted to increase the council salaries. **Please stop the money grab!** Councilmembers Davis-Holmes and Hicks, some former elected officials, some of the Charter Committee members and residents are **Voting NO on Measure CA**. Please, **VOTE NO on MEASURE CA**. Thank you.
