The applicant, Charles Kim, Hampton Inn franchisee, is requesting to consider approval for a modification of Conditional Use Permit No. 1070-18 to change the Alcohol Beverage Control (ABC) license type from 42 to 70 at the Carson Hampton Inn. The property is located at 767 East Albertoni Street.

Staff Report and Recommendation:

Planning Intern Toris presented staff report and the recommendation to ADOPT Resolution No. 20-2683, entitled, “A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF CARSON APPROVING A MODIFICATION OF CUP NO. 1070-18 TO CHANGE THE ALCOHOL BEVERAGE CONTROL LICENSE TYPE FROM 42 TO 70 AT THE CARSON HAMPTON INN AT 767 E. ALBERTONI STREET.”

Chair Pimentel opened the public hearing.

Charles Kim, representing the applicant, noted for Commissioner Madrigal that the liquor will be located behind the registration counter and that the front desk agent will be doing both registration and alcohol transactions from this desk. He added that it would not be possible with the current building setup to relocate the alcohol sales. He explained for Commissioner Rashad that they had been previously approved for the wrong ABC license which is the reason for this evening’s request/revision.

There being no further input, Chair Pimentel closed the public hearing.

Commissioner Valdez expressed his belief there are too many alcohol sales locations in this area.

Planning Commission Decision:

Chair Pimentel moved, seconded by Commissioner Palmer, to approve the applicant’s request, thus adopting Resolution No. 20-2683. Motion carried, 5-1 (Valdez voted no; absent Cainglet, Mitoma, Rahman).

Commissioner Palmer asked if there is a condition to limit the height for the stacking of tires along the fence line.

Sr. Planner Rincon stated that a condition can be added.

Commissioner Madrigal asked if there is a problem with the dumping of trash in the alley. He added that the empty lot next door needs some attention, especially for the overgrown bush growing into the public right-of-way.

Chair Pimentel opened the public hearing.

Jose Duran, applicant, stated that since he has placed cameras facing the alley, he is not seeing any trash dumping at the back of his property; and he noted his concurrence with the conditions of approval.

There being no further input, Chair Pimentel closed the public hearing.

Planning Commission Decision:

Commissioner Palmer moved, seconded by Commissioner Valdez, to approve the applicant's request; moved that a condition be added which requires tires not be stacked/stored any higher than the existing fence; and moved to adopt Resolution No. 20-2685. Chair Pimentel opened the public hearing.

Planning Manager Betancourt explained that because the resolution and conditions of approval will need to be revised, this hearing will be continued to February 11th, but stated that the Commission and any audience input could be taken this evening.

Commissioner Palmer asked if these units will be for rent.

Rick Welter, applicant’s representative, stated these units will be for sale only.

Chair Pimentel asked if people are still living in the homes that will be demolished and if so, how many people are living in those homes.

Mr. Welter stated that the 15 homes are still occupied by approximately 45 people; and he explained that they’ve all received notice of the plans for this project, but added that they are well away from starting any activity on this property, anticipating it will take a year to begin construction activity.

Mr. Welter noted for Commissioner Madrigal that there will be one exit and one entry point; that this will not be a gated community; that they have owned all these properties for approximately the last 10 years; that they met with these residents and most of the residents on 219th and also had a community meeting; and that they plan to work with those residents who will ultimately be displaced once the work commences.

Mr. Welter explained for Commissioner Rashad that certain conditions will be imposed during the construction phase to limit the noise impacts to the neighborhood.

Mr. Ramsey, consultant, explained that the current midday noise level of 62-63 dB is a bit high, but explained that the new units will adhere to the updated laws for interior/exterior that should attenuate the noise levels to 45 dB when completed.

Commissioner Rashad asked if sustainable energy is being planned for this project.

Mr. Welter explained that they haven’t gotten to that level of detail yet, but he added the units will likely be pre-plumbed for solar power and that the landscaping will be drought tolerant.

Robin Edmond, neighbor, asked for input on how much 220th Street is going to be impacted by the increase in traffic.

Mr. Welter explained that the traffic impact study indicates there will be a less than significant impact from the overall project, that the increase in traffic will be negligible; and he added that this project will be an aesthetic improvement to this area and will help to increase the property values in this area.
Mr. Ramsey explained that during peak a.m. traffic hours, there will be a total of 26 trips and a total of 35 trips in the peak p.m. traffic hours, roughly one trip every 2 minutes east and west along this stretch of 220th Street.

The public hearing remained open.

Planning Commission Decision:

Chair Pimentel moved, seconded by Commissioner Fe’esago, to continue this matter to February 11, 2020. Motion carried, 6-0 (absent Cainglet, Mitoma, Rahman).
