A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF CARSON FINDING A CEQA EXEMPTION AND CONDITIONALLY APPROVING SITE PLAN AND DESIGN REVIEW NO. 1929-23 FOR A PROPOSED ADDITION TO A REAR UNIT OF A FREESTANDING MULTIFAMILY DUPLEX.

WHEREAS, on January 23, 2023, the Department of Community Development received an application from Amer Khan, property owner, for real property located at 310 W. 220th Street and described in Exhibit “A” attached hereto requesting approval of Design Overlay Review No. 1929-23 to allow a 303 square foot addition and 120 square foot covered patio to an existing 852 square foot detached single-family residence on a freestanding duplex property. The 303 square foot addition will consist of a new bedroom, bathroom, and laundry room. The covered patio will be located on the front end of the proposed addition, which is to the rear dwelling on site.

WHEREAS, studies and investigations were made and a staff report with recommendations was submitted, and the Planning Commission, upon giving the required notice, did on the ___ day of July 2023, conduct a duly noticed public hearing as required by law to consider said design overlay application. Notice of the hearing was posted on the subject property and mailed to property owners and properties within a 750-foot radius of the project site by July _____, 2023.

NOW, THEREFORE, THE PLANNING COMMISSION OF THE CITY OF CARSON, CALIFORNIA, HEREBY RESOLVES AS FOLLOWS:

SECTION 1. The Planning Commission finds that the foregoing recitals are true and correct, and the same are incorporated herein by reference as findings of fact.

SECTION 2. The Planning Commission further finds that the facts of this matter are as follows:

- a) The proposed project is consistent with the General Plan of the City of Carson. The project site has a General Plan Land Use designation of High Density Residential and the proposed development is compatible with the surrounding uses. There is no applicable specific plan.
- b) The proposed project, as conditioned pursuant to the conditions of approval set forth in Exhibit “B” hereto, is compatible in architecture and design with existing and anticipated development in the vicinity, including the aspects of site planning, land coverage, landscaping, appearance and scale of structures, open spaces, and other features relative to a harmonious and attractive development of the area. The applicant has proposed an attractive architectural style and high-quality materials that are consistent with the existing residences. The subject property currently does not meet the CMC landscaping requirement that live plant material shall cover 75% of the landscaping area, and therefore the approval granted pursuant to this resolution is conditioned upon the applicant/property owner’s compliance with said requirement.

- c) The proposed development will preserve and maintain convenience and safety of circulation for pedestrians and vehicles via the existing driveway and garage. There will be no change to the site access, driveway or circulation from the subject residence or the other residence on the subject property.
- d) There is no signage associated with the proposed development.
- e) The proposed development will occur in one phase.
- f) The proposed development is in conformance with the City’s design standards and guidelines applicable to this project.
- g) The required findings pursuant to Carson Municipal Code Section 9172.23 (D), “Site Plan and Design Review,” can be and are made in the affirmative with respect to the project as conditioned pursuant to the conditions of approval attached hereto as Exhibit “B”.

SECTION 3. The proposed project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301, Class 1 – Existing Facilities which consists of the operations, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. An example of this exemption is additions to existing structures provided that the addition will not result in an increase of more than 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less. The proposed addition meets the criteria of said example. CEQA Guidelines §15301(e)(1).

SECTION 4. Site Plan and Design Review No. 1929-23, as conditioned pursuant to Exhibit “B”, complies with the City’s General Plan and Zoning Ordinance, including Article IX, Chapter 1, Section 9172.23 (Site and Design Review) of the Carson Municipal Code.

SECTION 5. The Planning Commission of the City of Carson, pursuant to the findings noted above, does hereby approve Site Plan and Design Review No. 1929-23 for a 303 square foot addition and 120 square foot covered patio to a detached single-family residence on a freestanding duplex property at 310 W. 220th Street, subject to the Conditions of Approval contained in Exhibit “B” attached hereto.

SECTION 6. This decision of the Planning Commission shall become effective and final 15 days after the date of the action unless an appeal is filed within that time in accordance with section 9173.4 of the Zoning Ordinance.

SECTION 7. The Secretary shall certify to the adoption of the Resolution and shall transmit copies of the same to the applicant
