

filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (d) of Section 50199.50 of the Health and Safety Code, for very low, low- or moderate-income households or condition approval, including through the use of design review standards, in a manner that renders the project infeasible for development for the use of very low, low- or moderate-income households unless it makes written findings, based upon substantial evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588 and that is in substantial compliance with this article, and the development project is not needed for the jurisdiction to meet its share of the regional housing need for very low, low-, or moderate-income housing.

(2) The development project as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(3) The denial of the project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households.

(4) The development project is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The development project is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a housing element in substantial compliance with this article. This subdivision cannot be utilized to disapprove a housing development project defined in subdivision (a) if the development project is proposed on a site that is identified for very low, low-, or moderate-income households in the jurisdiction's housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation.

(e) Nothing in this section shall be construed to relieve the local agency from complying with the Congestion Management Program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act (Division 20 (commencing with Section 30000) of the Public Resources Code). Neither shall anything in this section be construed to relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) Nothing in this section shall be construed to prohibit a local agency from requiring the development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the
