## **I. SUMMARY**

This item is on the agenda at the request of Mayor Pro Tem Santarina to provide updates at all regularly scheduled City Council meetings related to the environmental investigation of the Carousel Tract.

## **II. RECOMMENDATION**

CONSIDER and DISCUSS.

## **III. ALTERNATIVES**

TAKE such other action the City Council deems appropriate that is consistent with the requirements of law.

## **IV. BACKGROUND**

Since the last council report dated August 05, 2014, the Los Angeles Water Quality Control Board (Regional Board) is continuing its review of the Remedial Action Plan (RAP), Feasibility Study (FS), and Human Health Risk Assessment (HHRA). The Regional Board has ongoing weekly technical discussions with Shell Oil Company (Shell) regarding clarification and addendum to the submitted documents. The preparation of the draft Environmental Impact Report (EIR) is in progress; nevertheless, the completion date is undetermined at this time. At the time of this report, there are no new meeting dates planned with the Carousel Tract residents by the Regional Board since these meetings are pending on the completion of the draft EIR. As of the last report, the meetings were tentatively postponed to late September 2014 or early October 2014; consequently, there is a great possibility that the meetings between the Regional Board and the Carousel Tract residents may be postponed further. The Regional Board will notify the residents directly once new dates are set.

Testing of property in the Carousel Tract is continuing and the latest reports are posted on the Regional Board's website at:
