SUBJECT: CONSIDER STATUS REPORT ON THE REGIONAL WATER QUALITY CONTROL BOARD ENVIRONMENTAL INVESTIGATION AND CARSON DECLARATION OF THE EXISTENCE OF A LOCAL EMERGENCY WITHIN THE CAROUSEL TRACT

Submitted by Cedric L. Hicks, Sr.
Director of Community Services

Approved by Jacquelyn Acosta
Acting City Manager

I. SUMMARY

This item is on the agenda at the request of Mayor Pro Tem Santarina to provide updates at all regularly scheduled City Council meetings related to the environmental investigation of the Carousel Tract.

II. RECOMMENDATION

CONSIDER and DISCUSS.

III. ALTERNATIVES

TAKE such other action the City Council deems appropriate that is consistent with the requirements of law.

IV. BACKGROUND

March 20, 2014, the Regional Water Quality Control Board Environmental Investigation reported the following key steps taken:

1) Site Specific Cleanup Goals

After careful review of Shell Oil Company's (Shell) cleanup goals, the Regional Board determined that the cleanup goals did not meet stringent standards that are appropriate for residential neighborhoods. As a result, the Regional Board directed Shell to meet site-specific cleanup goals to protect residential uses.

2) Remedial Action Plan (RAP), Notice of Preparation (NOP), and an Environmental Impact Report (EIR)

The Regional Board is currently reviewing the RAP Shell submitted on March 10th that proposes the method(s) for cleaning up soil and groundwater. After its review, the Regional Board will release the proposed RAP, Feasibility Study (FS) and Human Health Risk Assessment (HHRA) for public comment.

In compliance with the California Environmental Quality Act, the Regional Board has filed a NOP. Preparation of a Draft EIR, which will evaluate the potential effect the cleanup methods may have on the environment and what can be done to avoid or reduce these impacts, is underway. The NOP is now

available for public comment at the Regional Board website: www.swrcb.cagov/rwqcb4/Kast and the Carson Public Library, 151 E. Carson Street, Carson, California. In the summer of 2014, the Regional Board will hold community meetings and accept public input on the RAP, FS, HHRA, and Draft EIR.

Staff investigated a report of possible drilling activity near the Carousel Tract by EB Natural Resources, 24210 S. Main Street, Carson, California. The company representative informed staff that EB Natural Resources currently has no drilling activity in Carson.

As of March 21, 2014, the completed Residential Sampling Activity is as follows:

- 270 homes have been screened for methane. (95%)
- 270 homes have had soils sampled and vapor probes installed. (95%)
- 270 homes have had sub-slab soil vapor probes sampled. (95%)
- 250 homes have had indoor air sampling. (88%)
- 230 of 250 homes have had their 2nd round of indoor air sampling. (92%)*
