II. Project Description

The applicant requests approval of Design Overlay Review (DOR) No. 1783-19 to construct an 864 square-foot second-story addition to an existing single family dwelling in the RS (Residential, Single-Family) Zone.

The lot parcel measures 3,680 square feet (40' wide x 92' deep). Pursuant to Section 9121.1 of the Carson Municipal Code (CMC), single-family dwellings on lots less than 50 feet wide require Site Plan and design Review.

The proposed 864 square-foot addition to the existing 1,341 square-foot single-family residence will result in a 2,392 square-foot house consisting of four bedrooms, three and a half bathrooms, kitchen, laundry room and living/dining room combination. The architecture and materials of the new additions will match the existing home.

III. Project Site and Surrounding Land Uses

The subject property is located in the RS (Residential, Single-Family) Zone and is designated Low Density under the Land Use Element of the General Plan and General Plan Map. The site is located in the southwestern part of the City near the intersection of Kinard Avenue and 228th Street.

Land uses surrounding the proposed project site are primarily single-family residential properties.

Figure (a) Project Site in context to surrounding zoning

The following table provides a summary of information regarding the project site:

Zone District	Residential, Single-Family
Site Size	3,680 SF
Present Use and Development	Single Family Residence
Surrounding Uses/Zoning	North: RS; Single Family Dwelling South: RS; Single Family Dwelling East: RS; Single Family Dwelling West: RS, Single Family Dwelling

IV. Analysis

Land Use

The subject property is zoned RS (Residential, Single-family) with all adjacent properties sharing the same zoning designation. The General Plan Land Use

designation of the subject property is Low Density. Properties to the north, south, and east are likewise designated Low Density. The General Plan Land Use designation for properties to the west is Medium Density. The proposed addition and site upgrades will be compatible with the surrounding residential uses.

Site Plan

The proposed 864 square foot addition to the existing 1,341 square-foot single-family residence will result in a 2,392 square foot house. There will be a five-foot setback on each side, which is required by the zoning ordinance.

V. Environmental Review

The proposed project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301, Class 1 – Existing Facilities. Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

VI. Public Notice

Notice of public hearing was posted to the project site on August 14, 2019. Notices were mailed to property owners and occupants within a 750' radius on August 14, 2019. The agenda was posted at City Hall 72 hours prior to the Planning Commission Meeting.
