

City of Carson COVID-19 Update

Monday, November 30, 2020

To help keep the community informed, the City of Carson is providing COVID-19 (coronavirus) news updates related to health, safety recommendations, and informational links to meet the needs of the community and protect public health.

The coronavirus outbreak began in China and has since spread across the globe with the first case reported in the U.S. by the CDC in January 2020. COVID-19 is commonly spread among people who are in contact with an infected person. Some people who are infected may not exhibit symptoms but can still spread the virus according to Public Health Experts. Although less common, COVID-19 can also spread through a person's contact with coronavirus contaminated objects and surfaces where respiratory droplets have landed and then touching their own mouth, nose, or eyes.

Transmissions can overall be significantly reduced if everyone always wears a face covering securely over their nose and mouth, maintains six feet distance from anyone outside of their household, washes their hands regularly, and stays home as much as possible. People are also urged to avoid public gatherings where people are in close proximity, unable to remain six feet apart, cheering and shouting, especially without face coverings. If you are even mildly sick or think you were exposed to someone with COVID-19, stay home and away from others, and consider being tested for the virus.

The above recommendations are essential to prevent you from unintentionally spreading COVID-19 to other people.

PLEASE NOTE THAT THE CITY OF CARSON MUST ADHERE TO ANY AND ALL ORDERS SET FORTH BY THE COUNTY OF LOS ANGELES AND THE STATE OF CALIFORNIA.
