**Most Frequently Asked Question:
#1 - Why is my street not on the list for repaving?**

Response: Please note that the citywide paving improvement is an ongoing multi-year maintenance program that will repair all streets in Carson. The project will require continuous scheduling. The work is being approached in a systematic manner that considers the many factors that can negatively impact progress. This means that we must do our best to adhere to the schedule created by our staff and the city contractor. Please be assured that your street will also receive all needed maintenance as part of this citywide paving improvement.

We thank you in advance, for your patience and mindfulness as we continue to tackle street repairs in all four districts simultaneously keeping in mind that our goal is to make all city streets safe and accessible.
