WE'RE OPEN FOR BUSINESS!

We know how important it is to service our clients, especially with material that tends to be a bit stinky. Our trucks are out there six days a week (sometimes seven) and we are only closed on major holidays. For a current list of closures, visit the **Holidays** page of our website or follow us on Facebook or Twitter to stay updated with news and events that may impact your service.

Your Exclusive Waste Hauler

Commercial Services Guide

ABOUT US

With over 50 years of operational experience and expertise in the waste industry, Waste Resources offers the highest quality integrated waste services to our customers and bring back the good old-fashioned and outstanding service enjoyed before the "mega mergers."

We provide dependable services to municipal, commercial, industrial, construction, and residential customers.

We are always striving to improve our environment with cutting edge ideas. Currently, we are testing and developing new technologies to ensure a healthy environment for our future. We hope to make landfills, like dinosaurs - extinct.

Keeping the world green with a touch of orange

With containers from 64-gallons to 40-cubic yards, we can provide you with a cost-effective solution to handle all your solid waste management needs. Our staff will help you find ways to keep your material out of landfills. We value our customers and will work to provide you with great service at a great price. Contact us to schedule a FREE recycling evaluation to receive a customized plan to reduce waste, increase recycling, and possibly save you money.

flexible solutions for your business needs

HOW TO GET STARTED

It's easy to recycle at your business or multi-family complex:

- ✓ Make sure you have arranged for **blue** recycling or **brown** organics service.
- ✓ Separate recyclables and/or organics inside your business or complex.
- ✓ Place recyclables in Waste Resources' **blue** recycling bin or **brown** organics cart for collection.

MANDATORY COMMERCIAL RECYCLING

State law requires all businesses that regularly generate four (4) or more cubic yards of waste weekly and all multi-family complexes (5+ units°) to recycle. While Waste Resources does offer mixed waste processing for some commercial customers, it may be to your advantage to subscribe to a separate service for paper, plastic, glass, and metals.

MANDATORY ORGANICS RECYCLING

As of January 1, 2019, State law requires all businesses and multi-family complexes that regularly generate four (4) or more cubic yards of waste weekly to recycle their food* scraps, nonhazardous wood waste, and landscape and pruning waste. Call us to get started on this program.

DON'T KNOW WHERE TO START?

Contact Waste Resources to schedule a FREE recycling evaluation.

* Multi-family complexes are not required to recycle food waste at this time.
